EDUCATION

Bangladesh University of Business & Technology

BSc in Computer Science & Engineering
CGPA 3.32 / 4.0 · 2022 – 2025

Magura Polytechnic Institute

Diploma in Computer Technology
GPA 3.46 / 4.0 · 2016 – 2021

SKILLS

- Adaptability
- System Thinking
- Critical Thinking
- Team Leadership
- Communication Skills

STRENGTHS

- Scalable UI Architecture
- Clean Architecture (.NET)
- AI-Assisted Development
- Performance Optimization
- Cross-functional Collaboration

Saif Iqbal

Software Engineer | Full-Stack Development, Enterprise Apps & AI-Assisted Workflows Specialist

PROFILE

AI-Forward Full-Stack Engineer with 3+ years delivering enterprise applications — from pixel-perfect React/Next.js frontends to robust .NET Core APIs and optimized SQL Server databases. Built and shipped 100+ features across HRM, ERP, and real-time Production Tracking systems at scale. Specialized in building scalable frontend architectures, reusable component systems, and high-performance UI experiences, designing EF Core data models, and writing complex SQL queries. Actively building AI-assisted workflows using Vercel AI SDK and OpenAI APIs.

WORK EXPERIENCE

Ha-Meem Group | Tejgaon, Dhaka

Oct 2024 – Present

Software Engineer

Portal 360 — enterprise HR & Admin suite · React.js · Next.js · TypeScript · .NET Core · SQL Server

- Architected and delivered **100+ features** across HRM, Recruitment, KPI, ESS, and Production Tracking as lead full-stack engineer.
- Built Organogram system with hierarchical drag-and-drop UI in React/TypeScript and EF Core-backed hierarchy APIs.
- Built reusable frontend components and scalable UI architectures across multiple modules.
- Optimized rendering performance using memoization, lazy loading, and efficient state management.
- Designed Recruitment module end-to-end: React multi-step forms, Redux state, .NET Core approval workflow APIs, and SQL Server schema.
- 30% faster dashboard load time** — optimized React Query caching, lazy loading, and EF Core LINQ queries with SQL Server index tuning.
- Delivered Product Tracking System (PTS) with Vue.js dashboards, QR-code tagging, real-time analytics, and .NET Core + SQL Server backend.
- Converted 50+ Figma screens to pixel-perfect, responsive interfaces using Tailwind CSS and Ant Design.
- Integrated AI-assisted development using Cursor and Claude; building AI features via Vercel AI SDK and OpenAI APIs.

Fort International Ltd | Elephant Road, Dhaka

Nov 2022 – Oct 2024

Junior Software Engineer

EnterCount Accounting ERP (React · Node.js · .NET Core) · Pulse360 Hospital Management (Laravel · jQuery)

- Built POS system frontend with React + Redux and REST API backend in .NET Core + EF Core — **improved transaction speed 20%**.
- Designed and optimised SQL Server schemas for accounting, inventory, and billing modules; wrote complex stored procedures and LINQ queries.
- Enhanced invoice accuracy by **15%** through frontend validation and automated .NET Core backend workflows.
- Revamped patient admission/discharge workflows in Pulse360 (Laravel + jQuery) — **cut processing time 25%**.
- Integrated Firebase for real-time product and transaction tracking across the ERP frontend.
- Built SEO-optimised landing pages with Next.js following Core Web Vitals best practices.

CORE SKILLS

FRONTEND ★

React.js · Next.js · TypeScript ·
JavaScript (ES2022+) · Vue.js ·
HTML5 · CSS3

STATE & DATA

Redux Toolkit · Zustand · React
Query · SWR · Context API

STYLING

Tailwind CSS · MUI / Ant
Design · Bootstrap · Figma →
code

BACKEND ★

.NET Core (Clean Architecture)
· EF Core · Node.js · REST APIs

DATABASE ★

SQL Server (schema, query &
index optimization) · MySQL

AI / DEV

Vercel AI SDK · OpenAI API ·
Claude Desktop · Cursor

TOOLING

Git & GitHub · Cypress ·
Postman · Docker · Figma

KEY PROJECTS

Portal 360 – HR & Admin Suite

portal.hameemgroup.com

Enterprise HRM platform — Recruitment, ESS, PMS, KPI, and Organogram modules.

React.js + TypeScript · Redux · role-based access · .NET Core Clean Architecture APIs + EF Core ·
SQL Server. **30% load time reduction** via React Query caching and EF Core tuning.

Ha-Meem Career Portal

jobs.hameemgroup.com

End-to-end recruitment portal — job listings, applications, and candidate tracking.

Next.js (App Router) + TypeScript · multi-step forms · .NET Core REST APIs with RBAC · SQL Server
schema for applicant, job, and interview data · automated email notifications.

Product Tracking System (PTS)

pts.hameemgroup.com

Real-time garment tracking — cutting to final QC — powered by QR codes.

Vue.js dashboards · QR-code generation & bundle tagging · .NET Core + EF Core backend · SQL
Server optimised for real-time factory analytics.

EnterCount Accounting ERP

entercount.com

Full-featured ERP for accounting, inventory, and billing.

React + Redux frontend · .NET Core + EF Core APIs · SQL Server · POS system (20% faster
transactions) · automated invoicing (15% accuracy improvement) · Firebase real-time integration.
